EVAN ODELL
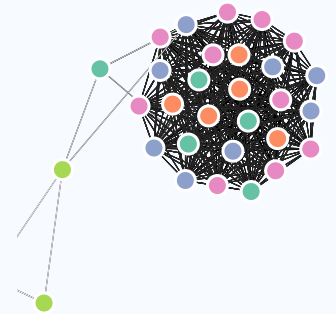

Currently searching for a position at the intersections of public policy, health and data. I've built many R packages to streamline social science research and maintain a widely used dataset of UK parliamentary speeches far superior to the official version. I make interactive maps of things like the relationship between housing prices and public transport services, or the amount of land given over to golfing.

🎓 EDUCATION

2015 | 2014

MSc in Comparative Social Policy
University of Oxford   📍 Oxford

2014 | 2013

Visiting Student
University of British Columbia   📍 Vancouver

2014 | 2009

BA (Honours) in Political Science
Laurentian University   📍 Sudbury/Barrie, Canada

🖥 PROFESSIONAL EXPERIENCE

Nov 2020 | Aug 2020

Freelance Project Manager
Disability Rights UK   📍 Berlin

- Managing a three month programme of public engagement and communication to inform the UK government's forthcoming Disability Strategy.

Aug 2020 | Jun 2016

Researcher
Disability Rights UK   📍 London

- Conducted original quantitative research and data analysis on a range of topics, with an emphasis on health and welfare state issues.
- Testified before House of Lords Economics Select Committee on serious issues in the UK's flagship welfare policy.

May 2019

Instructor in Health Studies
Queen's University, Bader International Study Centre   📍 East Sussex

- Designed and taught "Disability Studies: Issues, Research and Policy", a final-year undergraduate course with a particular focus on public health and comparative analysis of welfare states.

Oct 2018 | Jun 2018

Freelance Data Analyst
London Business School   📍 London

- Designed a methodology to analyse parliamentary speeches using structured topic models, and wrote methods section, data visuals and statistical tables for use in a future paper.
- Analysed speeches in Hansard to identify differences in the topics and language style between male and female Labour MPs, and between female Labour MPs selected through open or all-women shortlists.

2016
|
2015

Performance and Impact Officer
Future Leaders Trust   ● London

- Conducted primary and secondary analysis of school performance data, disseminated results internally through presentations and internal reports, and externally through press releases.
- Co-authored the first original research report published by the Trust, responsible for data collection and methodology, and contributed to the writing of the report.

📄 SELECTED PROJECTS

Aug 2020
|
Mar 2020

NHS Unified Information Standard – Protected Characteristics
NHS

- Developed a schema of 11 categories and a range of nested subcategories to identify public health inequalities amongst people with disabilities.

Apr 2020
|
Jan 2020

Use of apps in healthcare treatment
NHS

- Conducted a series of interviews on behalf of the National Health Service on patient experience of public health apps.
- Wrote report advising on future strategies for integrating apps and other technology into healthcare personalisation efforts in the UK.

Feb 2020
|
Dec 2019

Access to Advice Services in London
Nuffield Foundation

- Identified civil society organisations providing ad-hoc advice on different topics, using open charity data and web scraping.

Aug 2019
|
Apr 2018

Young People's Attitudes to Disability
Lottery Community Fund

- Conducted focus groups with 42 children aged 12-14 with and without disabilities on their attitudes to and experiences of disability.

Jun 2019
|
Dec 2018

Inclusive Education and Co-Production
European Association of Service Providers for Persons with Disabilities

- Conducted a systematic review of research on attitudes to co-production in education amongst teachers, parents and students.
